

# EEICT 2007

## Obsah

### Předmluva

### Středoškolské projekty

#### Elektronika a komunikace

**Faltíčko, M.**

S-Mixer: Univerzální mix pro modeláře..... 12

**Vomočil, J.**

Audioamplifier 2 X 125W ..... 15

#### Kybernetika a automatizace

**Gábrlík, P.**

Robot - Line Tracer.....20

**Neubauerová, A., Hejlova J.**

Analyse of Bell..... 23

#### Silnoproudá elektrotechnika a elektroenergetika

**Hyrák, Z.**

Photovoltaic System on SPŠ Uherské Hradiště..... 28

#### Grafika a multimédia

**Křen, M., Hlaváč, M.**

Education Program for Descriptive Geometry ..... 32

#### Počítačové systémy

**Křivák, V., Kaňovský, T.**

Optical Shooting-Range..... 36

### Bakalářské projekty

#### Elektronika a komunikace

**Beneš, J.**

Programmable Dimmer for Aquaristic Purposes ..... 42

**Charvát, J.**

Underwater Computer for Scuba Diving..... 45

<b>Keršner, O.</b>	
Measurement of Geomagnetic Field.....	48
<b>Kmet', E.</b>	
Determination of the Quality, Range and Performance Characteristics of the IEEE 802.11a Wireless Networks.....	51
<b>Kupčik, O.</b>	
Humidity Measuring.....	54
<b>Moravec, P.</b>	
Proposal Some Motive of Multiband Planar Antennas by The Help of Modal Analysis.....	57
<b>Povalač, A.</b>	
Remote Control of Measurement Devices in SRD Band.....	60
<b>Šeděnka, V.</b>	
Equalizing Circuit Using Audioprocessor.....	63
<b>Škapa, M.</b>	
Signal Processing in WiMAX System.....	66

## **Zpracování signálů**

<b>Hrdlička, P.</b>	
Isolated word recognition.....	70
<b>Hubeika, V.</b>	
Estimation of Gender and Age.....	73
<b>Veselý, K.</b>	
Hybrid Recognizer of Isolated Words.....	76

## **Kybernetika a automatizace**

<b>Dvořák, J.</b>	
Model of Arterial System.....	80
<b>Pergl, M.</b>	
Magnetic Rezonance Imaging.....	83

## **Silnoproudá elektrotechnika a elektroenergetika**

<b>Hanák, M.</b>	
Surge Protective Device in Industry Distribution Network.....	88
<b>Hradil, Z.</b>	
Electric Energy Marketing of the Liberalized Market.....	91
<b>Jorda, M.</b>	
Thermal Comfort.....	94
<b>Kasal, O.</b>	
System For Control Lighting.....	97
<b>Ondroušek, L.</b>	
The Impact of the Production of Electricity and Heat on the Environment.....	100

## **Teoretická elektrotechnika, fyzika a matematika**

### **Bureš, P.**

Numerical Modelling and NMR Verification of the Oorthogonal Configuration Specimens.....	104
--	-----

### **Hruboš, Z.**

Integrator Based Synthesis of Chaotic Oscillator .....	107
--	-----

### **Judinyová, K.**

Modelling of the Visual System.....	110
-------------------------------------	-----

### **Mašek, J.**

Simple Chaotic Oscillator .....	113
---------------------------------	-----

### **Pinkava, J.**

Numerical Modelling and NMR Verification of the Cy .....	116
--	-----

## **Mikroelektronika a technologie**

### **Drda, V.**

NiCd and NiMH Battery Charger .....	120
-------------------------------------	-----

### **Feber, V.**

Optimalization of screen-printing inks preparation.....	123
---	-----

### **Flodrová, E.**

Thick-Film Sensors with Nanopatterned Electrodes for Heavy Metals Detection .....	126
---	-----

### **Jeřábek, M., Janošek, M.**

Dielectris Properties Of Non-Aged And Thermally Aged Slot Insulation .....	129
--	-----

### **Kledrowetz, V.**

Design of Basic Stage of Pipelined AD Converter.....	132
--	-----

### **Nicák, M.**

Optimalization of Lead-free Soldering Process.....	135
--	-----

### **Pšenička, M.**

Realization of Power Modules for Autonomous Photovoltaic Systems .....	138
--	-----

### **Valehrach, O.**

Design and Realization of Dynamic Element Matching Method for 4-bit DA Converter.....	141
---	-----

### **Zošiak, D.**

USB Interface Analysis.....	144
-----------------------------	-----

### **Zattovič, M.**

Interface Development for User Account.....	147
---	-----

## **Informační systémy**

### **Křoustek J.**

Code Analysis and Transformation .....	152
--	-----

### **Solár, P.**

Parallel Deep Pushdown Automata .....	155
---------------------------------------	-----

## **Grafika a multimédia**

**Šolony, M.**

Optical Motion Capture System .....	160
-------------------------------------	-----

## **Počítačové systémy**

**Beck, P.**

Acceleration of Biological Sequence Comparison Algorithms Using FPGA .....	164
--	-----

**Košek, M.**

TCP State Processing for FPGA Technology.....	167
---	-----

## **Inteligentní systémy**

**Kubíček, J.**

Pattern-Based Verification of Programs.....	172
---	-----

**Martinský, O.**

Algorithmic and mathematical principles of automatic number plate recognition systems .....	175
---	-----

**Marvan, A.**

Mobile Robot .....	178
--------------------	-----

**Váňa, J.**

Pathfinding Module .....	181
--------------------------	-----

**Žaloudek, L.**

Coevolution of Sorting Networks and Training Vectors .....	184
--	-----
